

FREE WORKSHOP on using digital tech to bring generations together in your area

The Digital Age Project is an initiative that focuses on the promotion of digital and social inclusion for older people, using an intergenerational approach involving young people.

Come along to our informal workshop and find out more about how your organisation / group can use technology to link generations in your local area using our free downloadable resource, The Digital Age Project Toolkit

www.digital-age.org.uk

Workshops coming to an area near you:
