

Co-Ordination and Development Officer

25 hours per week

Salary: £25,591 (pro-rata)

Derry Healthy Cities wish to recruit an enthusiastic and motivated individual to support the delivery of the organisations' key aims and objectives.

This is a new and varied role where you will have the opportunity to input to a range of projects and activities which support and develop an inclusive attitude to health; advance education relating to the benefits of good health; and promote, develop and support organisations offering health care services and support.

Applicants must have a recognised relevant degree and 2 years' paid experience of successfully managing or coordinating health related, capacity building, or community development project(s) at middle management level in an NGO, private or public sector body, **Or** five years' experience of successfully managing and delivering health related, capacity building, or community development project(s) at middle management level in an NGO, private or public sector body.

You will have excellent facilitation, networking and organisational skills and the ability to work with a range of organisations at several levels. Knowledge of public health, health inequalities, community development, capacity building, governance, partnerships and training processes which are underpinned by training and experience will also be central to this role.

This post is for 25 hours per week for a 12 month period. The post holder will be based in the Derry/Londonderry Area, but travel and work across Northern Ireland will be required.

An application form, detailed job description and specification are available on email from info@dhcni.com / claire@dhcni.com.

Closing date for the above post is 4pm on Tuesday 8th August 2017
