## About us

### OUR VISION

To be a leader in business telecoms solutions throughout the UK and Ireland.

### OUR MISSION

To provide our customers with cost effective products and services and deliver a high quality, ongoing service.

From London to Limerick and Belfast to Bundoran, Standard Utilities works seamlessly across the UK and Ireland to bring you the very best in business communications.

We offer a range of next generation telecoms solutions that will support your core business. Wherever you are, we've got you covered.

As Standard

## Don't just take our word for it...

"We've been with Standard Utilities since early 2016. They've taken the time to learn and understand our needs as a not-for-profit, and to supply us with the highest quality of service."

Linenhall Library, Belfast

# STANDARD UTILITIES

Connecting Businesses.  
Everywhere.

## Our Passion

We care because you care.

We know you have a choice of internet and telephony provider - and we want you to choose us.

So get in touch and start enjoying tomorrow's technology. Today.

**"I'm not sure how we'd have supported staff, volunteers and the people who use our services safely during the last 6 months without this new telephone system. We were able to make a difference at a time when so many people were feeling helpless."**

**Mind mental health,  
Mid Herts**

## Remote Reality

Adapt to the new norm and flexible ways of working from home or the office.

Enjoy the same levels of business connectivity wherever you are.

Tap into your network, anytime and from any location.

Stay connected while working remotely and enjoy enhanced workplace collaboration
