WAVE: Who we are?

WAVE, established in 1991, is a voluntary, cross community charitable organisation which offers care and support to anyone bereaved, traumatised or injured as a result of the Troubles/Conflict. **The philosophy and ethos of the organisation is one of inclusiveness, providing care for anyone irrespective of religious, cultural or political belief.** WAVE promotes a respect for life and an understanding of difference that is seen as enhancing rather than threatening. WAVE continually seeks creative ways of working through issues that have the potential to divide.

Over the years the violence in Northern Ireland has led directly to the deaths of over 3,600 people and resulted in over 40,000 serious injuries. The Cost of the Troubles Study (1997) estimated that, "At the very least 6,800 people have the experience of one of their immediate family - parent or sibling - being killed in a Troubles-related incident." The true cost however, is much higher as the relatives of those killed and maimed have also suffered ill health, disruption of family relationships, impaired functioning, substance abuse and in some cases when their grief became intolerable, suicide.

Over the last thirty years the level of calls and referrals to WAVE has increased year on year. Referrals are received from those affected by violence more recently in addition to those injured, traumatised or bereaved across the last four decades. This indicates the necessity of providing the services offered by WAVE on a long-term basis.

To date WAVE has offered care and support to over 20,000 people, a cross section of adults, young people and children. WAVE works to utilise the benefit of every pound received in funding or donations for the benefit of clients. The organisation's management cost is extremely low at 8%, well below the recommended national level of 15%. WAVE offers exceptional value for funders and strong professional services for clients.

WAVE has extensive community based Trauma Education Programmes, that staff member can access. These programmes have been refined and developed over 25 years and offer students a range of options to meet their learning needs. Trauma Education includes:-

- Short Trauma Courses accredited by the School of Education at Queen's University, Belfast under their Open Learning Programme.
- A BSc. (Hons) in Psychological Trauma Studies is delivered in partnership with the School of Nursing and Midwifery at Queen's University. It remains the only undergraduate trauma programme available in the United Kingdom and Ireland.
- A Postgraduate Pathway in Trauma Studies has been developed in partnership with University College Cork.
- Professional Development in trauma awareness and trauma informed practice for social work, midwifery and nursing students is delivered in partnership with the Schools of Social Work, Medicine and Nursing and Midwifery at Queen's University, Belfast.

WAVE has an extensive network of delivery processes across Northern Ireland. The organisation operates from five Outreach Centres in: Belfast, Armagh, Omagh, Ballymoney and Derry Londonderry and services such as Outreach Casework, Health and Wellbeing, Psychotherapy/Counselling, Advice/Welfare, Trauma Education, Personal Development, Training Opportunities and Complementary Therapies are available from all its Centres. In August 2021 WAVE opened a new residential centre in Killough, County Down. In addition,

the organisation has a number of satellite projects operating across a range of venues in response to local need. We also source services for those directly affected living outside of Northern Ireland.

Most recently WAVE are delighted to be able to deliver an extensive support programme for survivors of Historical Institutional Abuse (HIA) and the Mother and Baby Institutions, Magdalene Laundries and Workhouses (MBMLW). This will include a range of evidence based therapeutic, outreach and health and wellbeing support, welfare, educational programmes and support activities. Services will be delivered through our five regional centres and from our satellite projects to those survivors of HIA and the MBMLW living in Northern Ireland, Ireland, GB and further afield.
